are delighted to present to you an illustrated talk

LYKIA - LAND OF MOUNTAINS

Roman Baths, Tlos, Xanthos Valley

Lykia is a region defined by its mountains, the limited routes along its valleys and over its passes, and how historically these related to the sea around it.

In this talk, we start at the sea in the east, and we end at the sea in the west, but in between we traverse the mountains seeking out historical and modern settlements, their uses and their peoples.
